

What is the *Windstar Colorado Connection?*

The Windstar Connections programs started in 1988 as an extension of the Windstar Foundation philosophies. Keeping in line with the "Think Globally, Act Locally" means furthering these ideals.

The Colorado Connection was the original Windstar Connection group formed in 1988. We are committed to educational outreach in the community and encourage individuals to make educated choices in their lives and professional endeavors that lead to an environmentally sustainable future for us all.
